Patti Stammer

I have lived and worked in Humboldt County since 1966, graduating from Humboldt State University with a degree in Art with graduate studies in film and photography. I taught photography for 7 years in the San Francisco Bay Area at Foothill College and at College of the Redwoods. In 1992, I began working in commercial film production. I worked in several areas, including production, locations and casting. I chose location scouting and managing as the best fit.

EMPLOYMENT
